

Company Environmental Policy

Motivair Compressors Limited, a compressed air management company, recognise their responsibilities for environmental matters, placing a particularly high priority on environmental affairs with regard to company operations and the range of services offered to its customers.

The Company operates a policy of effecting continual improvement and change in accordance with developing knowledge and changing environmental requirements.

Motivair's personnel are aware of the environmental sensitivity of the business sector in which the Company operates, and seek to continually develop the company's environmental compliance. Due to the need for continual improvement, it can never be possible to detail fully the Company's environmental activities, but the following specific objectives form the basis of the Company Environmental Policy:

- All of the Company's operations must be carried out with due regard to all appropriate and relevant Waste Management Legislation, and Regulatory considerations
- The Company will only use disposal facilities where the level of operational control and environmental compliance is deemed to be of a suitable level, and represents responsible waste management. This, therefore, means that not all appropriately licensed disposal facilities will satisfy standards required by Motivair Compressors Limited.
- The Company will take whatever measures may be necessary to ensure the collection, transportation and storage which it operates, are not and do not become hazardous to public health or the environment.
- The Company will ensure that all collection, transportation and disposal of waste from its customers sites is covered by a written agreement, letter, order or confirmed acknowledgement, as well as the appropriate documentation to ensure that the Duty of Care (Section 34) of the Environmental Protection Act 1990, is fully complied with, regarding Controlled Waste Transfer Notes and waste descriptions
