

Motivair Opus Series

With the introduction of the Opus Series, Motivair can offer a truly comprehensive compressed air package.

Opus 6: Condensate Management

Opus Condensate Management systems assist users of compressed air systems to comply with the legal requirements laid out by the Environmental Agency and the Water Resources Act.

- Electronic no-air loss drain mechanisms
- Built in drain test points
- Oil and water separators can operate with any drain pipe
- Models cover up to 70m³/min compressor capacity
- Separation achieved for mineral, synthetic, polycol lubricants and stable emulsions

Opus 6

Electronic Drains				Oil & Water Separators			
Type	CFM	M ³ /min	Power Requirements	Type	CFM	M ³ /min	Max Oil Absorption (Liters)

OP-ED85	3000	84.9	220/240/1/50	OP-WS285	285	8	10
				OP-WS706	706	20	15
				OP-WS1235	1235	35	25
				OP-WS2470	2470	70	25

Sewerage and Waste Water Disposal (Pollution Prevention - The Environmental Agency).

Discharges into any public foul sewer requires authorisation by the sewerage system operator (normally the local water authority).

Compressed air condensate is considered as trade effluent and cannot be discharged unless within proscribed limits and by permission. The Motivair Condensate Management equipment provides compliance to the regulations when installed and maintained correctly.

If the compressors use 'Food Grade Oil' (synthetic types). Due to the lubricant being non-soluble in water, direct discharge of such condensate into the foul sewer or any water treatment system should be avoided. The use of Opus 6 condensate systems does provide a compliant disposal route.

Motivair recommends that the condensate management equipment is included in any preventative maintenance scheme for optimum performance.

Motivair would recommend that the use of Opus 7 piping systems are ideal for condensate management systems. These systems provide corrosion free materials to convey condensate from drainage points to the oil and water separator set.

Oil and water separator and drains service kits are available to support the Opus 6 product range.
